

Ericsson's 24th Sustainability and CR Report: Solutions to help meet the SDGs

Ericsson publishes its 24th annual Sustainability and Corporate Responsibility Report , detailing the company's progress toward connecting business and sustainability. Using SDGs as a framework for the company's impact on society, the report summarizes Ericsson's achievements in three areas: responsible business; energy, environment and climate change; and internet for all.

Highlights include:

- Ericsson committed to deliver superior energy performance and lead climate action in the telecom industry
- Mobile broadband solutions are the most viable way to ensure Internet for All for the 4 billion unconnected people around the world
- First statement on Modern Slavery and Human Trafficking for the Ericsson Group
